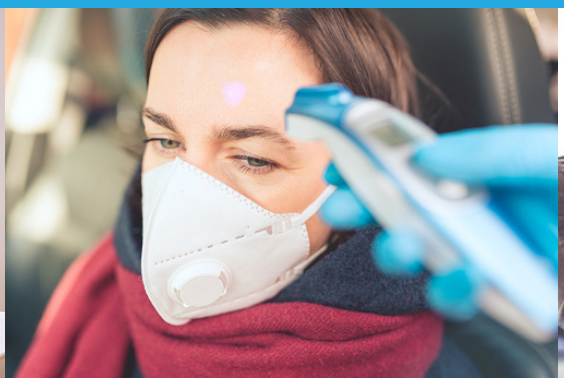
COVID-19 Compliance

Infectious Disease Screening Solutions

The isolation and quarantine process is integral to your COVID-19 campus safety plan.

How you execute your plan makes all the difference.



Isolation and quarantine protocol is likely something you don't have the resources or experience to manage effectively. Luckily, we do.

As part of our comprehensive **CB COVID-19 Compliance** platform, **iQ** assumes complete control of your Isolation and Quarantine process from start to finish—taking the necessary steps to help prevent the spread of COVID-19 throughout your entire organization.

So you can concentrate on running your campus safely and efficiently while reducing risk and liability.

Our exclusive **iQ** managed service adopts CDC–approved measures including quarantining and/or isolating any individuals who test positive or show symptoms of COVID-19.

Ensuring 100% compliance. And zero guesswork.

Symptoms or exposure

Quarantine/ Isolation

14+ days or testing

Monitor symptoms throughout entire process regardless

Return to campus date when safe

Our expertise, your ongoing safety.

The **CB COVID-19 Compliance** platform engages individuals directly with our **T.E.A.M.** approach to screening for common COVID-19 symptoms and exposure, soliciting and collecting answers electronically.

We review an individual's progress including the symptoms they're displaying, antibody and diagnostic testing results, or the presence of other high-risk indicators. We then advise these individuals to start, continue, or end isolation or quarantine—consulting with you on individual cases with special circumstances to make a safe, informed decision.

Delivering a reliable audit trail and secure path back to campus.

Colleges and universities know how critical it is to document everything they do to protect themselves in the event of an audit—and COVID-19 is no exception. CastleBranch provides daily iQ reports to document every communication and step taken over the course of isolation and quarantine, providing visibility and insight while helping to mitigate the risk of legal liability. Whether managing 20 individuals or 2,000, you'll be able to track each person's progress on a daily basis, keeping a detailed audit trail that covers every step of the journey.

Complex regulation compliance made simple.

Electronically collecting, storing, and reporting private health information and data also requires compliance with a long list of federal rules and regulations.

CB COVID-19 Compliance was built by a consumer reporting agency with over 20 years of experience navigating these laws—helping to ensure compliance with the Fair Credit Reporting Act (FCRA), Family educational Rights and Privacy Act (FERPA), Health Insurance Portability and Accountability Act (HIPAA), General Data Protection Regulation (GDPR), California Consumer Privacy Act (CCPA), and more.
